Hyperbaric Medicine Team Training

The Wound Care Course

Hyperbaric Safety Director Training Course

Inspection, Maintenance, & Documentation of Hyperbaric Chamber Acrylics

Review Course for Undersea and Hyperbaric Medicine Board Exam

Hyperbaric Medicine Team Training

San Antonio, Texas

This 42-hour program is approved by the Undersea and Hyperbaric Medical Society (UHMS) and the National Board of Diving and Hyperbaric Medical Technology (NBDHMT) as an introductory course in hyperbaric medicine. The course is appropriate for physicians, nurses, respiratory therapists, and technicians. The comprehensive curriculum is presented by highly experienced staff and an adjunct faculty of experts. The curriculum includes classroom instruction and practical exercises. Participant will see both monoplace and multiplace facilities.

Completion of this course meets one of the prerequisites to achieve certification in hyperbaric technology (CHT), hyperbaric nursing (CHRN), or undersea and hyperbaric medicine (UHM).

Primary Hyperbaric Medicine Course

Conducted at your location

This 40-hour program is the traveling version of Hyperbaric Medicine Team Training. It is approved by the Undersea and Hyperbaric Medical Society (UHMS) and the National Board of Diving and Hyperbaric Medical Technology (NBDHMT) as an introductory course in hyperbaric medicine. The course is appropriate for physicians, nurses, respiratory therapists, and technicians. The program offers instruction appropriate to monoplace and multiplace chambers.

Completion of this course meets one of the prerequisites to achieve certification in hyperbaric technology (CHT), hyperbaric nursing (CHRN), or undersea and hyperbaric medicine (UHM).

The Wound Care Course

San Antonio, Texas

This 12-hour program is an introductory course in wound care. It is designed to help physicians, nurses, physical therapists and other health care professionals to understand the principles of modern, moist, interactive wound care and application of advanced therapeutic technologies. The curriculum includes classroom instruction and skills laboratories.

Hyperbaric Safety Director Training Course

San Antonio, Texas

This 28-hour program is designed to provide necessary tools and resources to fulfill the responsibilities of the hyperbaric safety director (as defined by NFPA 99). This course is appropriate for

hyperbaric technologists, respiratory therapists, nurses, and physicians. The curriculum includes classroom instruction and practical exercises.

Inspection, Maintenance, and Documentation of Hyperbaric Chamber Acrylics

San Antonio, Texas & Other locations

This 6-hour program trains chamber operators the proper inspection and care of the acrylic components of the hyperbaric chamber. The curriculum includes classroom instruction and a skills laboratory.

Review Courses

Review Course for Undersea and Hyperbaric Medicine Board Certification

This 10-hour course is a review and preparatory course for subspecialty board certification in Undersea and Hyperbaric Medicine. This course is appropriate for physicians planning to sit the Board Certification Exam.

CHT/CHRN Exam Study Hall

Various Locations

This 2-hour study hall includes Test Taking Strategies and an open forum for participant questions. It is a free service; and is held immediately before some of the scheduled CHT/CHRN exams. This study hall is appropriate for CHT and CHRN candidates.
